

Workshop: Our Bodies, Our Stories

Cancer Communication + Health Justice

Tuesday November 8, 2:00 - 3:15 pm
CIS #3020, USF-Tampa

Presented by the Department of Communication in collaboration with the **Judy Genshaft Honors College** and the **Humanities Institute**

Open Workshop: Facilitated by **Marie Garlock, Ph.D.**, live music by Stacy Grove, M.Div.

Come experience creative and stress relieving ways to discern and to share what you know from facing cancer personally, with a loved one, or professionally.

The workshop uses InterPlay methods which are designed for all people, across pain, fatigue, and mobility differences. Come to gain skills for restoration when feeling overwhelmed, experiencing compassion fatigue, and other experiences common to cancer care. We will engage in movement and stillness, improvisational tools for storytelling, vocal and breath relaxation, and be supported by live healing music.

For More information, contact Patrick McElearney, Ph.D. at mcelearney@usf.edu

** CIS-3020 "Performance Lab" is located on the 3rd floor of the Zimmerman building i.e., Communication & Information Sciences*
